

Specifications:

Stature: Pediatric

Range:

Pediatric (09cm to 25cm)

Well nourished pediatric (25cm to 50cm) when cascaded

Bladder Width: 6cm

Bladder Volume:

Restricted =

Non-Restricted=

Material:

Medical Grade Urethane

Nylon

Latex Free

Regulatory:

AHA, AAMI Sp-10 and IEC-60601 compliant

FDA 510K

Coupling:

Exclusive dual molded tubes form the female connector for use with TEC-Connect system or industry standard Rectus male connectors.

Minimum Service Life:

Inflate 100,000 cycles @ 350mmHg in a restricted mode.

AAMI Sp-10 = (10,000 @ 330mmHg)

Inflate 1,000 cycles @ 250mmHg in a non-restrictive mode.

No AAMI specification

Functional hook and loop after 1,000 cycles @ 350mmHg.

AAMI Sp-10 = (1,000 @ no abuse pressure)

BP cuff transducer is fully functional after 60 washing cycles using automatic machines.
