

Specifications:

Stature: Neonate

Range:

Neonate (03cm to 14cm)

Replaces conventional neonate sizes: 3, 4, and 5

Bladder Width: 4cm

Bladder Volume:

Restricted =

Non-Restricted=

Material:

Medical Grade PVC

Nylon

Latex Free

Regulatory:

AHA, AAMI Sp-10 and IEC-60601 compliant

FDA 510K

Coupling:

Exclusive dual molded tubes form the female connector for use with TEC-Connect system or industry standard Rectus male connectors.

Minimum Service Life:

Inflate 10,000 cycles @ 350mmHg in a restricted mode.

AAMI Sp-10 for reusable = (10,000 @ 330mmHg)

Inflate 100 cycles @ 350mmHg in a non-restrictive mode.

No AAMI specification

Functional hook and loop after 1,000 cycles @ 350mmHg.

AAMI Sp-10 for reusable = (1,000 @ no abuse pressure)

BP cuff transducer is fully functional after 10 washing cycles using automatic machines.
